

REMARKS/ARGUMENTS

In the Office Action, the Examiner noted that claims 1-20 are pending in the application. The Examiner additionally stated that claims 1-20 are allowed. The Examiner furthermore indicated that since the application is in condition for allowance, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Applicant hereby requests further examination and consideration of the application, in view of the following remarks.

In the Declaration

In the detailed action, the Examiner indicated that the application is in condition for allowance except for the following formal matter:

The Declaration does not identify the mailing address and foreign country of residence of inventor Ian Day. The Examiner further indicated that the mailing address and residence information may be provided on either an application data sheet or supplemental oath or declaration.

In accordance with 37 CFR 1.67, since the deficiency identified above relates to fewer than all of the inventors, it may be corrected by providing a supplemental oath or declaration identifying the entire inventive entity but signed only by the inventor to whom the error or deficiency relates. Accordingly, Applicant herewith submits a Supplemental Declaration and Power of Attorney that provides the mailing address and residence of Mr. Day and which is signed only by Mr. Day.

CONCLUSIONS

In view of the preceding remarks, Applicant respectfully submits that the application is in formal condition for allowance.

Applicant earnestly requests that the Examiner contact the undersigned practitioner by telephone if the Examiner has any questions or suggestions concerning this amendment, the application, or allowance of any claims thereof.
